Corporate Ambassador Scheme

Words from our Patron

"As a patron of Migrant Leaders, it gives me enormous pleasure to provide a message of support for the work that our charity carries out to develop and help young migrants fulfil their potential."

The valuable Parker Report highlighted that citizens of colour represent only 2% of FTSE100 Boardrooms compared to 14% of UK population. Migrant Leaders carried out further research and looking at the same population this number goes down to only 1.3% who migrated to Britain and almost all were privately educated. Migrant Leaders sets out to change this.

The value of this diversity to the growth of the British economy and the benefit to everyone in British society is immense. I wholeheartedly believe in the Migrant Leaders mission and the intelligence and resilience it has taken to bring it to where it is today."

Our story

Migrant Leaders is a charity that develops talented young migrants and young people from other disadvantaged backgrounds so that they can fulfil their career aspirations and personal ambitions. It was set up following the findings of the Parker Review which produced "A Report into the Ethnic Diversity of UK Boards" (2017). The valuable findings of this report led Elham Fardad to set up Migrant Leaders as a way of addressing the under-representation found by the Parker Review. She also sees Migrant Leaders as a way of giving back to this country which has given her so many opportunities to succeed since she arrived here as a young migrant 30 years ago.

Through its innovative development programme Migrant Leaders aims to support young people with mentoring, conferences and on-line learning to build the many skills, insights and connections needed that will help them succeed in areas where they have potential and ambitions to succeed but not necessarily the know-how or networks to gain entry and promotion.

Since setting up Migrant Leaders, Elham has worked to establish a

group of experienced Mentors who are senior executives in leading firms that will be matched with young people selected for the development programme. We now want to expand the pool of valuable Mentors in the development programme within London and across all parts of Britain. The Migrant Leaders Corporate Ambassadors Scheme is designed to achieve this and more by recruiting volunteers to represent and advocate for Migrant Leaders.

"Imagine the magic that would happen when young people from under-represented backgrounds get leading practice development early on and they feel supported by us and they enter the corporates with that positive mindset, capability and hunger for achievement. I'd like to thank each and every one of you as you have all been by my side on this journey. This journey that turned Migrant Leaders from a concept and sentiment into reality."
